136	Black PC935 FC199 DP71	144	White PC938 FC101 DP72

GRIZAYE TIPS

Define the darkest areas first to preserve the details. Next, layer in your mid-tones, and then go in with your lightest colors. For a painterly look, use Odorless Mineral Spirits (OMS) on top. You can continue to layer and blend with OMS until you achieve the desired effect. A colorless blender pencil is useful to smooth transitions and to fill in the tooth of the paper. A white pencil will brighten colors and is perfect for final highlights. To finish, go over all areas to deepen your tones to create a professional look.
