

GRIZAYE DRAWING KIT COLOR GUIDE & TIPS

Sea Shells

GRIZAYE TIPS

Define the darkest areas first to preserve the detail. Next, layer in your midtones keeping your brightest areas the color of the paper. Then, go in with your lightest colors. Use a colorless blender to smooth transitions and to fill in the tooth of the paper. Use white to make your highlights pop. Go over all areas to deepen your tones to create a professional look.

COLOR GUIDE

These colors are just suggestions, plus black, white, and blender.

Mix your colors to get the closest match.

Compare swatch to your favorite colored pencil brand!
